

Red Door Events Inflatable Golf Simulator

Product Introduction

Red Door Events is proud to offer one of the world's most advanced golf simulators. Our golf simulators use the latest GPS Golf Simulation Software, which is currently, and will continue to be, the most advanced Golf Simulator software in the world.

Our inflatable cage offers a great range of flexibility for a variety of events around the world, allowing for the simulator to work inside or outside and be ready for use within 90 minutes. Using the very latest software and video technology, we are able to offer exceptional features that will be suitable for any event.

Clients can play outstanding golf courses, which include 'St Andrews, 'The Belfry' and 'The Twenty Ten Course' at Celtic Manor, home of the 2010 Ryder Cup.

Our system can be housed in 2 different structures –;

Cube Structure – For events with limited space

Devonie House, 5 York Avenue,
Windsor, Berkshire, SL4 3PE.
Telephone: +44 (0) 870 435 0218
Facsimile: +44 (0) 870 435 0219
Email: info@reddoorevents.co.uk
Web: www.reddoorevents.co.uk

Armadillo – For events with unlimited space.

Product Features

Using the latest Taylor Made golf equipment, a range of different activities is available to suit your event needs. Red Door Events can run 'Longest Drive Contest', 'Nearest the Pin Competitions' or even a full 18 hole round on some of the worlds greatest golf courses. The contests provide an exciting edge to any event, whether they are competition based or just for enjoyment. Using 3-D visual flybys and full replays, your guests will have the opportunity to view their shots from a variety of angles.

The simulator provides an exciting range of branding opportunities for your company or event. These include on-screen branding, golf ball branding or even the chance to advertise your company or event on 4 high profile banners displayed on the simulator structure.

Red Door Events prides itself on the exceptional service it provides with all it's systems. A fully qualified operator will always be on hand to ensure the simulator runs smoothly during your event.
