

Red Door Events Putting Golf Simulator

Product Introduction

Red Door Events is proud to offer one of the world's most advanced golf putting simulators. Our golf simulators use the latest GPS Golf Simulation Software, which is currently, and will continue to be, the most advanced Golf Simulator software in the world.

Red Door Events has designed and created a state-of-the-art Putting Simulator that can be used in at a variety of events around the world.

Using the very latest software and video technology, we are able to offer exceptional features that will be suitable for any event. Clients can putt on outstanding golf greens including 'St Andrews', 'The Belfry' and 'The Twenty Ten Course' at Celtic Manor, the home of the 2010 Ryder Cup. Our systems offer outstanding visual effects of courses around the world, creating an incredibly eye-catching activity at any event.

Product Features

Using the latest Taylor Made golf equipment, a range of different activities is available to suit your event needs. Red Door Events can run 'Long Putt Contests', 'Putting Analysis' or even a full 9 hole mini putt on some of the world's greatest miniature golf courses. The contests provide an exciting edge to any event, whether they are competition based or just for enjoyment. Using 3D visual flybys and full replays, your guests will have the opportunity to view their shots from a variety of angles.

The simulator provides an exciting range of branding opportunities for your company or event. Opportunities include on-screen branding, golf ball branding or even the chance to advertise your company or event on high profile banners displayed on the simulator structure walls.

Red Door Events prides itself on the exceptional service it provides with all its systems. A fully qualified operator will always be on hand to ensure the simulator runs effortlessly during your event.

Special Designs

Red Door Events has designed a structure that is suitable for any venue. Using the latest modular flooring, our systems have been created to fit into even the smallest office spaces. Red Door Events can also offer bespoke structures for one off events. They can be made to suit any requirement of your event.
